

Mobile App User Guide:

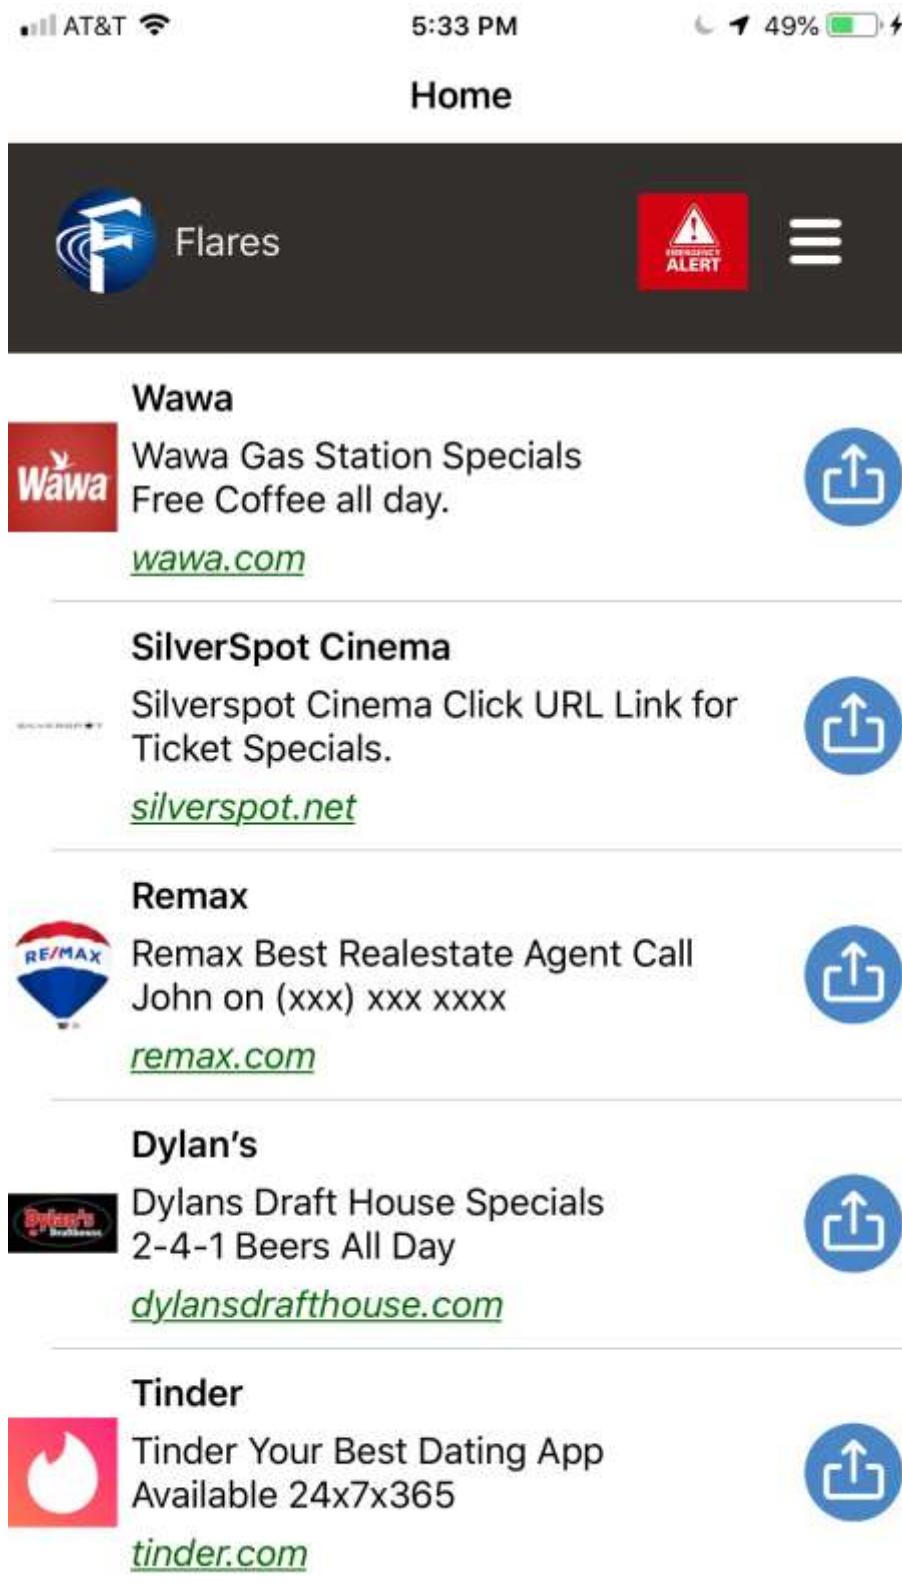

The Image below shows Notifications that have been received today and how they look on the recipient's phone. (This shows the Notification condensed in the Notification center).

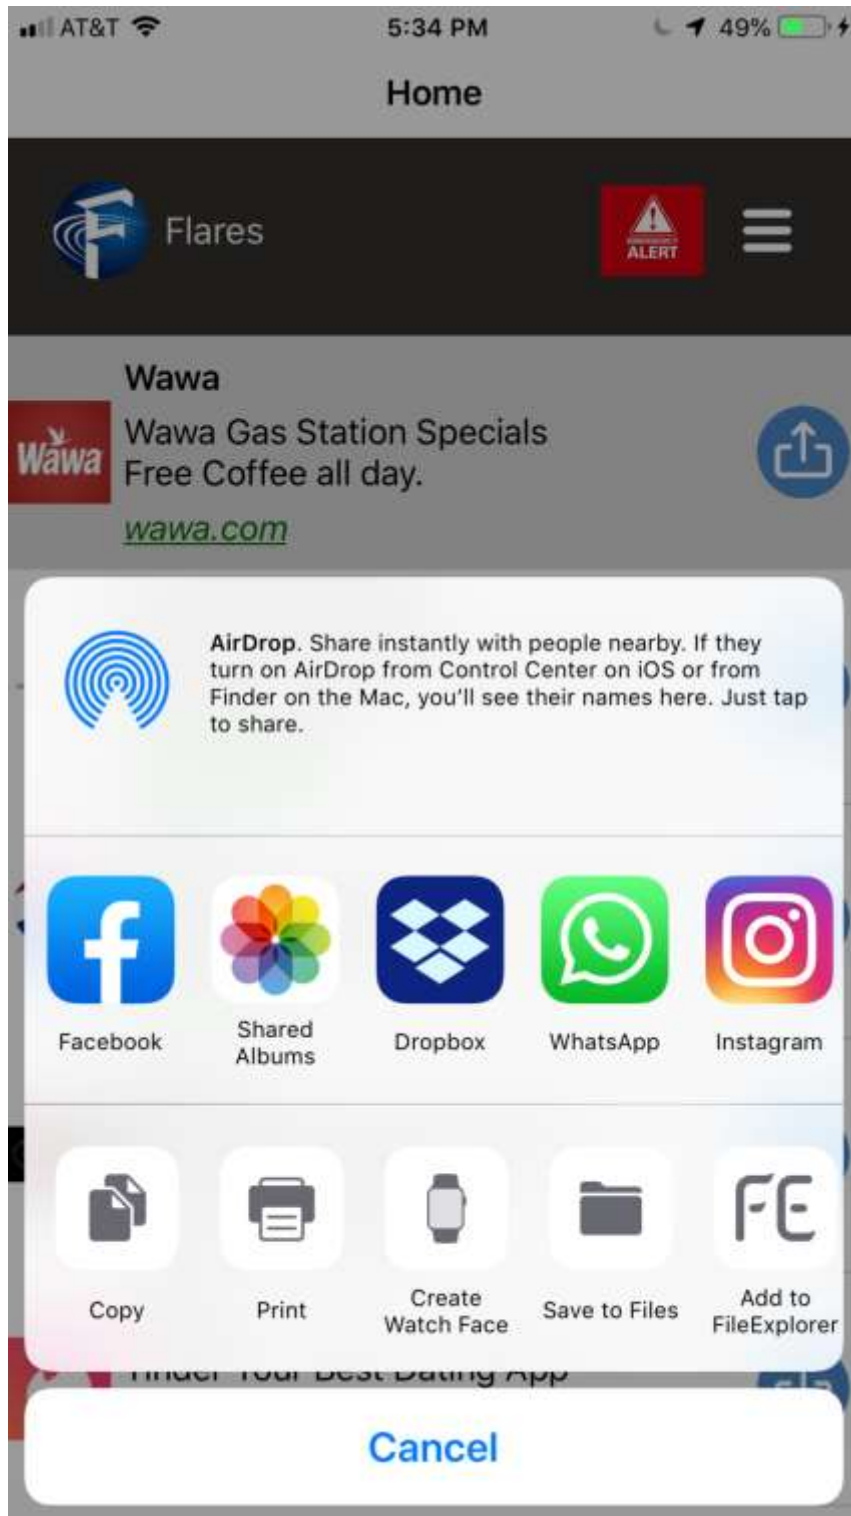

The Image below shows Notifications that have been received today and how they look on the recipient's phone when the Notification center is expanded.

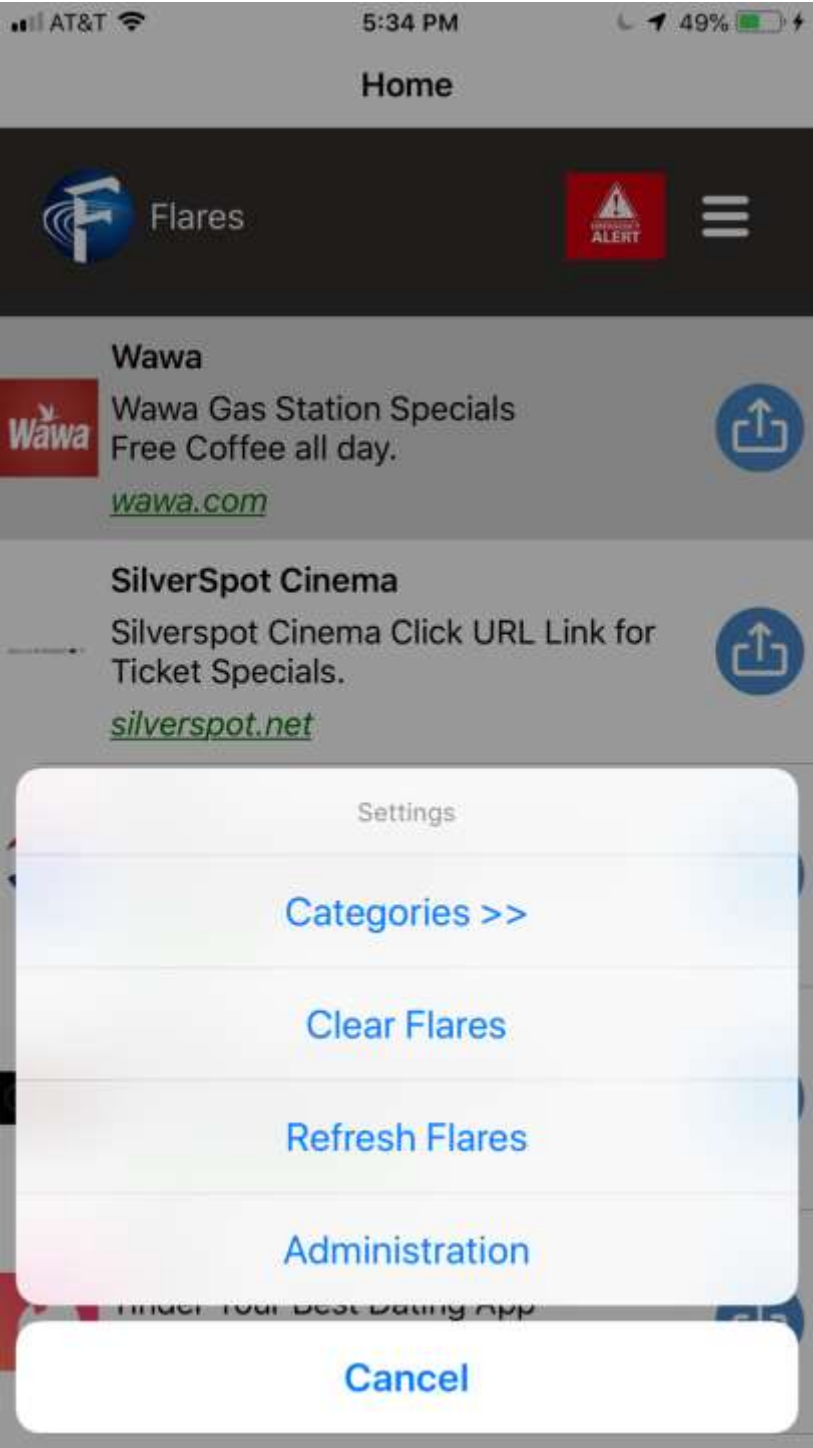

The Image below shows Notifications that have been received today and how they look in the App on the recipient's phone. This also shows the **Social Media Post Button** feature.

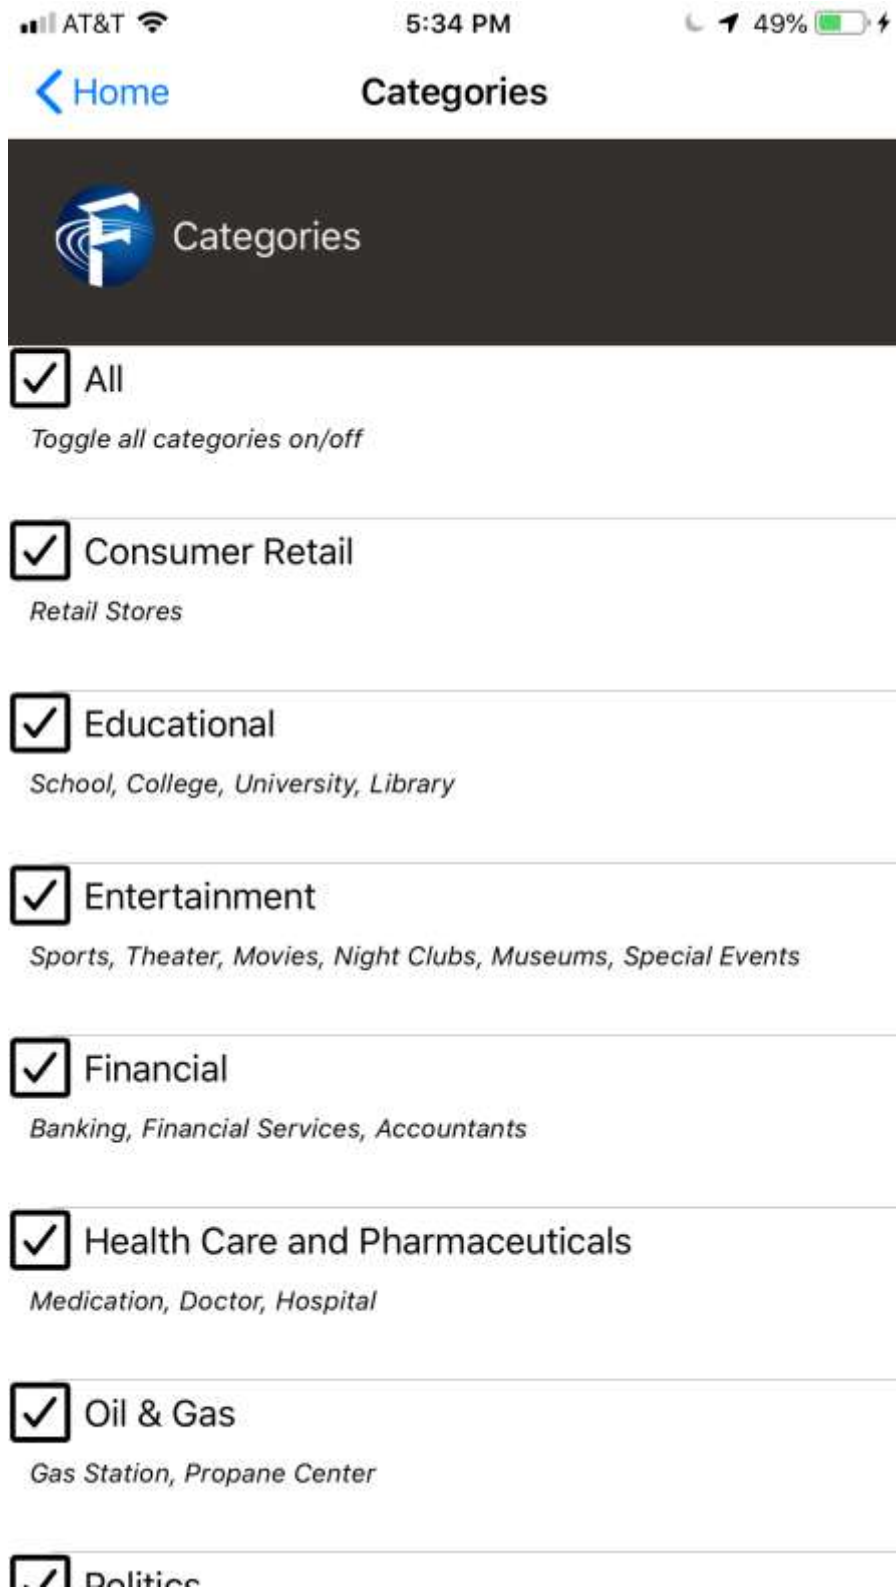

The Image below shows that a user has clicked the **Social Media Post Button** for one of the Notifications they received and want to post to their Social Media Account. The user can select any of their Social Media Accounts or Message Platforms to post the Received Notification to.

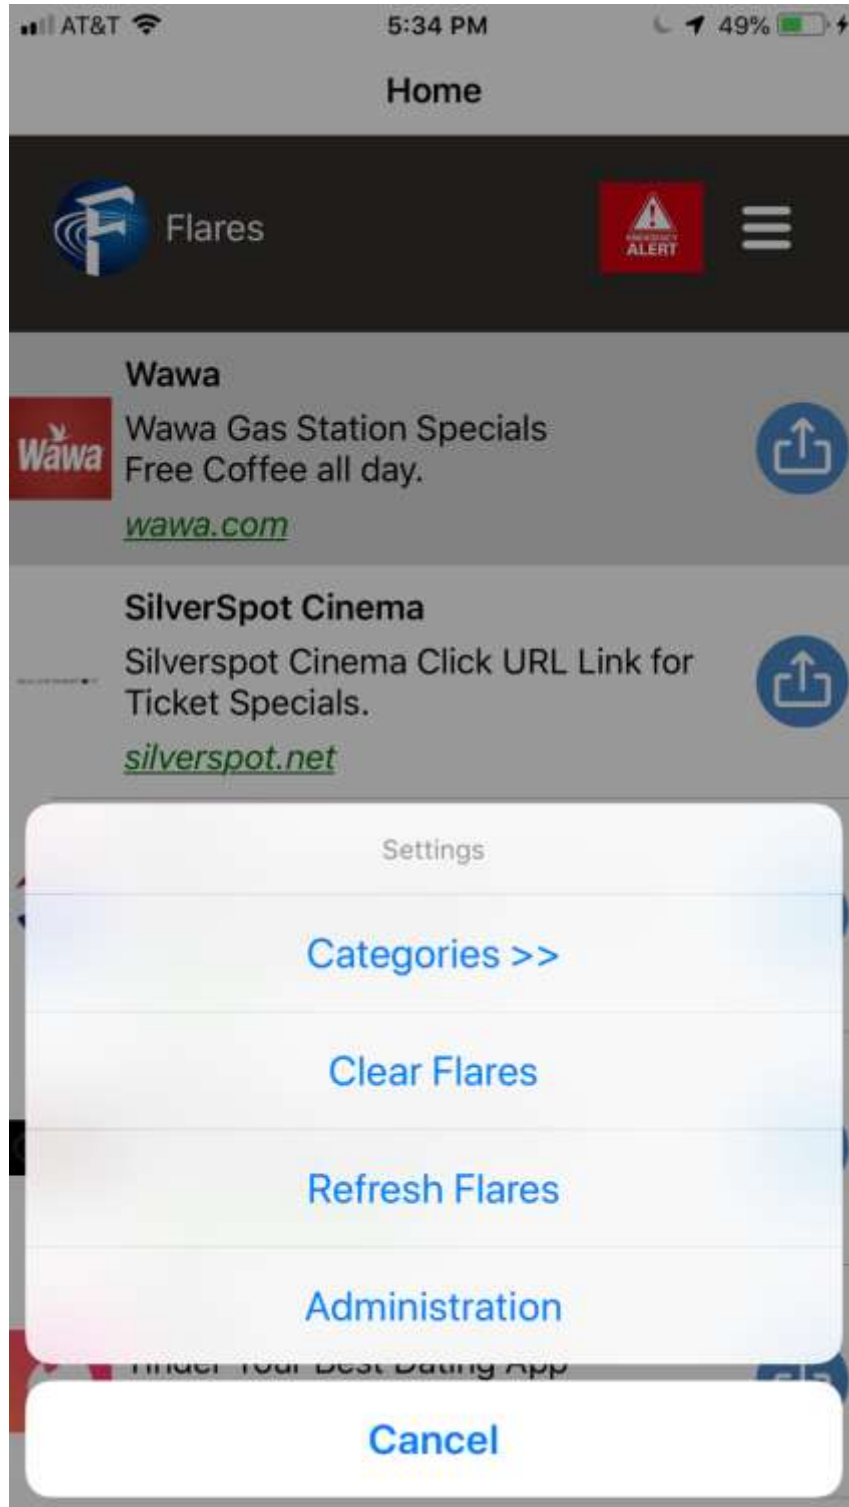

The user can set the App to only receive Notifications the user wants to receive. This avoids bombardment of notifications and gives the user control of what they want to receive. The Image below shows the user selected the Menu Button on the Top Right Corner  which opens a control panel. (Select Categories)

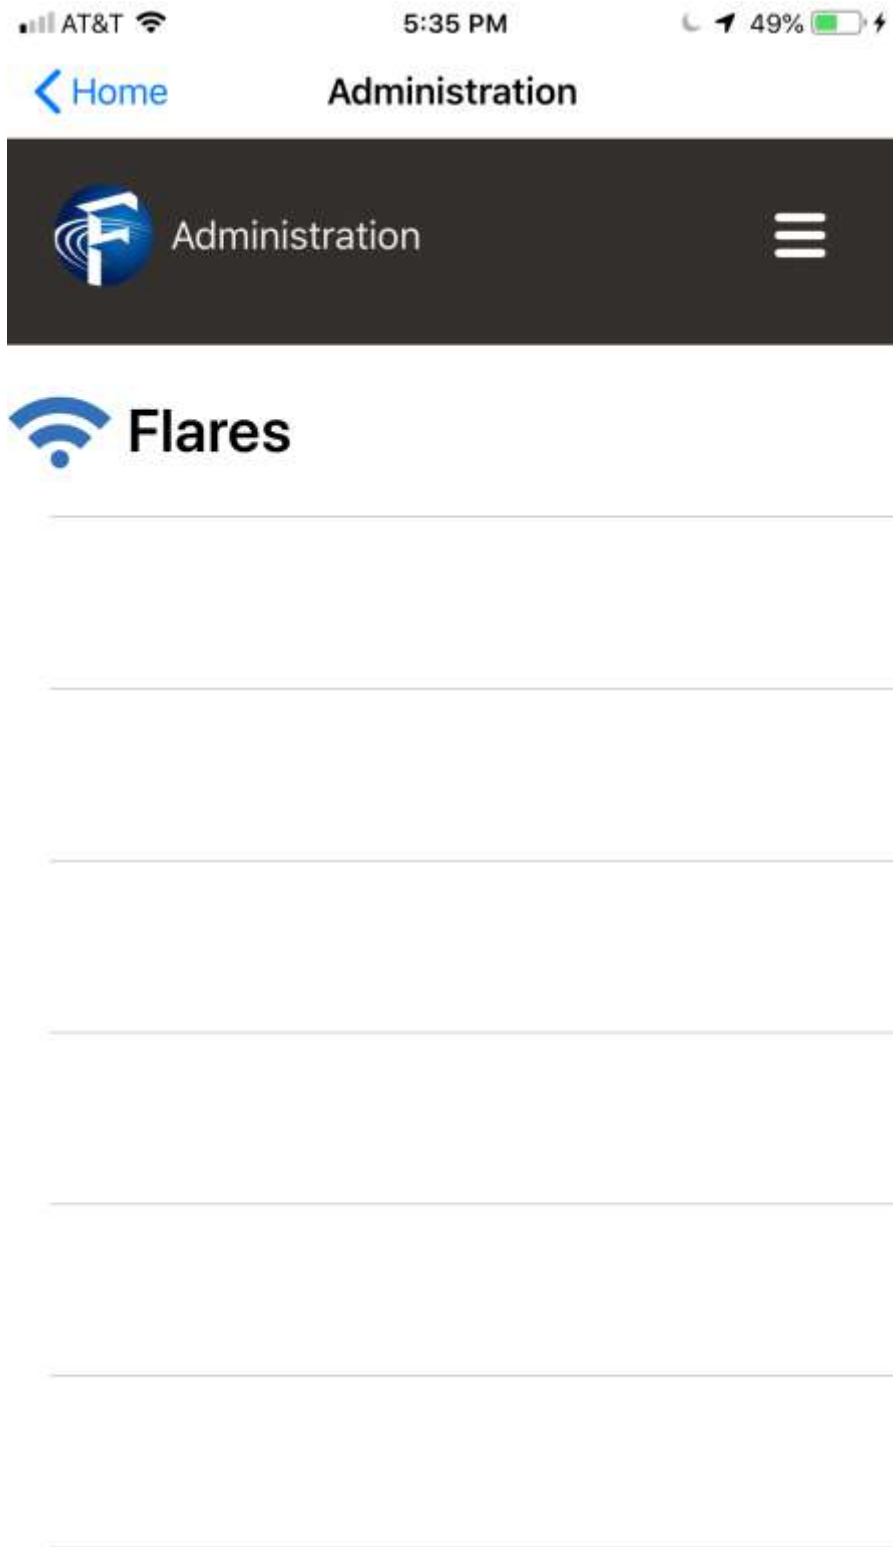

The Image below shows the list of Categories that can be Enabled or Disabled and any time per the users choice, this is done by Checking or UnChecking the relevant boxes.

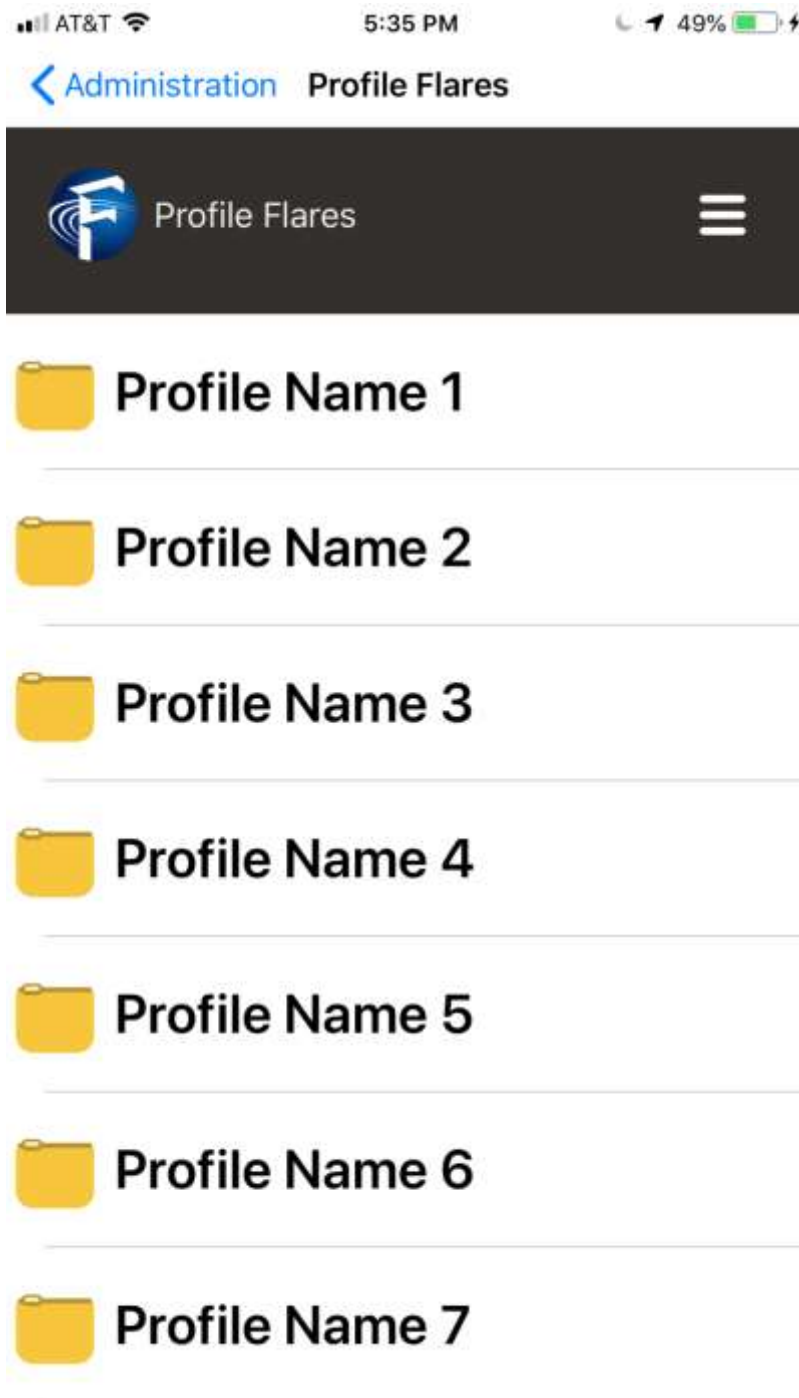

A Client of Flare Central can modify their FLARE Marketing Strategy or Marketing Notification Details from within the App itself. The Image below shows the Client (Once Logged In) selected the Menu Button on the Top Right Corner  which opens a control panel. (Select Administration)

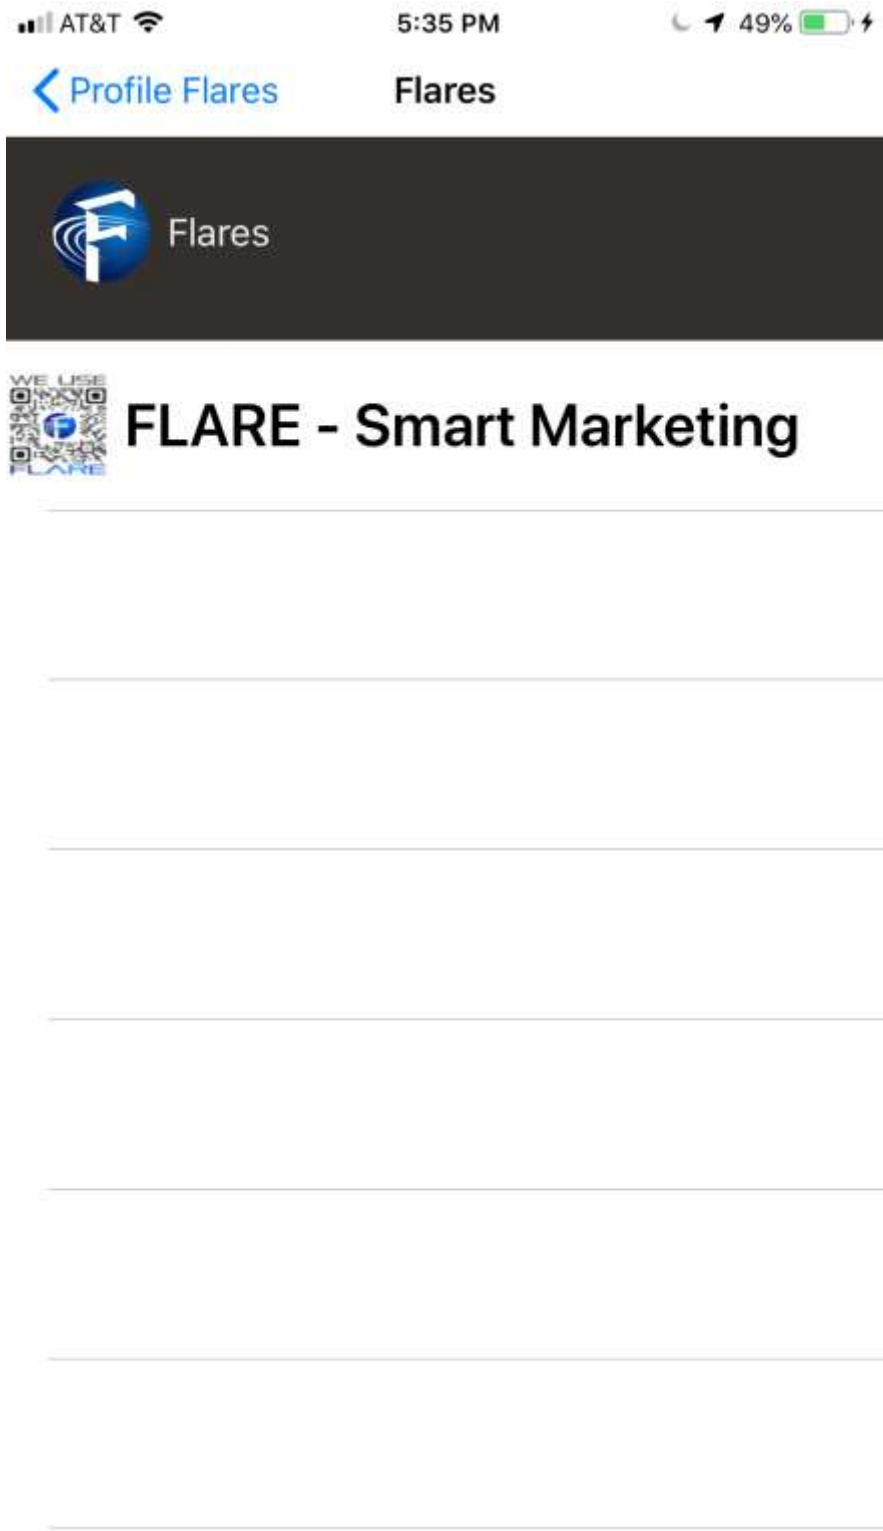

The Image below shows the Flare Central Client selected the Administration Button which takes them to their account where the Client selects their account they want to make changes to.

The Image below shows the Flare Central Client selected their account which takes them to a list of profiles they have created (Clients Profiles contain the Clients FLAREs). The Client selects their profile that contains the FLAREs they want to make changes to. (Generally a Client would only have 1 Profile but they can have more if they wish to separate out their FLAREs into different Profiles).

The Image below shows the Flare Central Client selected their Profile which contains 1 FLARE. The Client selects that FLARE to change the Marketing Detail they wish to advertise.

The Image below shows the Flare Central Client selected their Profile which contains 1 FLARE. The Client selects that FLARE to change the Marketing Detail they wish to advertise. When the Client has made their required changes, they select **Save** and then select the Top Left button  to go back to change another FLARE or to go back to their App Home Page which shows the received Notifications.
